We transcribe audio recordings of lectures, seminars, interviews, conferences, and congresses and translate them from English into Spanish or from Spanish into English. We guarantee precision and the timely submission of our work, as well as the treatment of both the material provided and the one produced with the utmost confidentiality. We accept several types of audio recordings, including CDs, cassettes, DVDs, MP3 or MP4 files. We work mainly with Microsoft Word. Enquiries about our other services are welcome.
